

SEMINARS IN MODERN CLINICAL GENETICS: HOW TO APPROACH A RAPIDLY CHANGING FIELD

Speaker	Topic	Date & Time
Stephen Meyn, MD, PhD Professor of Molecular Genetics & Pediatrics, Director, Center for Human Genomics and Precision Medicine	The Impact of Genomics on the Discovery and Diagnosis of Rare Genetic Disorders Link: https://uwmadison.zoom.us/j/98028544232	March 1 st 12:00 – 1:00
Laura Birkeland, MS, CGC Senior Clinical Genetic Counselor, Assistant Program Director, Department of Pediatrics	Genetic Testing and Counseling During Pregnancy Link: https://uwmadison.zoom.us/j/96442568079	March 2 nd 12:00 – 1:00
Steven Schrodi, PhD Assistant Professor, Laboratory of Genetics	Mapping of Disease Genes in Complex Traits: The Motivation, Development and Evolution of GWAS Link: https://uwmadison.zoom.us/j/97966031160	March 3 rd 12:00 – 1:00
Dustin Deming, MD Associate Professor, Hematology/Oncology	Precision medicine treatments for different subtypes of colon cancer Link: https://uwmadison.zoom.us/j/95671265595	March 4 th 12:00 – 1:00
David McCulley, MD Associate Professor, Department of Pediatrics, UCSD	Genetic Mechanisms of Congenital Diaphragmatic Hernia Link: https://uwmadison.zoom.us/j/99872922518	March 10 th 12:00 – 1:00
April Hall, PhD, MS, CGC Clinical Genetic Counselor, Department of Pediatrics	Genetic Counseling in the Genomics Era Link: https://uwmadison.zoom.us/j/99041905095	March 11 th 12:00 – 1:00
Divya Sinha, PhD Assistant Scientist, Waisman Center McPherson Eye Research Institute	Human pluripotent stem cell based retinal disease modeling for therapeutics development Link: https://uwmadison.zoom.us/j/95768825573	March 12 th 12:00 – 1:00

***** All are welcome to attend**
