Welcome, attendees!

• If you are attending virtually:
  • We are using the SMPH Video Library
  • Use the chat feature to send your questions for the Q&A
  • This meeting is being recorded, and your Q&A submissions will also be saved for follow-up as needed

Land Acknowledgment

We acknowledge that the land our university and school stands on is ancestral Ho-Chunk land.
Winter Faculty & Staff Meeting

January 23, 2023
Agenda

- Welcome Remarks
- Office of the Associate Dean for Social Health Sciences and Programs: Overview of Role, Partnerships, and Future Opportunities
- Centennial Scholars/Clinicals Program Updates
- AAMC Assessing and Advancing DEI Efforts Report Summary, Office of Diversity and Equity Transformation Update
- Town Hall: Questions, Comments, & Discussion
Office of the Associate Dean for Social Health Sciences and Programs: Overview of Role, Partnerships and Future Opportunities

Amy Kind, MD, PhD
Associate Dean for Social Health Sciences and Programs
Executive Director, Wisconsin Partnership Program
Director, UW Center for Health Disparities Research (CHDR)
Professor, Department of Medicine, Division of Geriatrics
Office of the Associate Dean for Social Health Sciences and Programs

• Oversee, create synergies, and guide the growth of the school’s current and future initiatives, policies and programs designed to study and eliminate health disparities

• Work closely with stakeholders in research, education, clinical, and public realms to build capacity and ensure the advancement of health disparities research
Structure: Office of the Associate Dean for Social Health Sciences and Programs

- **UW SMPH Dean**
- **UW SMPH Senior Associate Dean for Basic Research, Biotechnology and Graduate Studies**
- **Associate Dean for Social Health Sciences and Programs**
  - Wisconsin Partnership Program (WPP)
  - Center for Health Disparities Research (CHDR)
  - Center for Community Engagement and Health Partnerships (Milwaukee-based)
  - Collaboration with Research, Education, Clinical and Public Health SMPH Leadership
- **Other Programs**
Wisconsin Partnership Program: Improving Health in Wisconsin

Vision
Everyone in Wisconsin will live healthy and full lives

Mission
To bring about lasting improvements in health and well-being and advance health equity in Wisconsin through investments in community partnerships, education and research

Goals
Promote Innovation • Advance Health Equity
Build Capacity & Leadership • Catalyze Systems Change
Wisconsin Partnership Program: Governance Structure

- **UW System Board of Regents**
  - Regents’ Liaison

- **UW–Madison**
  - Chancellor’s Liaison

- **UW School of Medicine and Public Health (SMPH)**
  - Wisconsin Partnership Program

- **Wisconsin Foundation & Alumni Association**

  - Oversight and Advisory Committee (OAC)
  - Partnership Education and Research Committee (PERC)
Wisconsin Partnership Program: 19 Years of Grantmaking and Impact

Since 2004
609 grants
for over
$286 million

Our grantees have leveraged an additional $684 million to sustain their projects
Wisconsin Partnership Program: Driving Research and Scientific Discovery

- New Investigator Program
  - $150,000 over two years

- Collaborative Health Sciences Program
  - $600,000 over three years
  - Applications due February 14

- Strategic Research Grant Programs
  - Example: Institute for Clinical and Translational Research

208 Research Grants

$150 million
Grants support research to prevent, diagnose, treat and cure disease and prevent injuries.
Wisconsin Partnership Program: A Catalyst for Medical Education & Public Health Leadership

- Wisconsin Academy for Rural Medicine
- Master of Public Health Program
- Transforming Medical Education
- Wisconsin Partnership Program Scholarship
- Preventive Medicine Residency
- Wisconsin Population Health Services Fellowship Program

*bolded indicate active grants

48 Education & Training Grants

$40.8 million
Investments in education and training to prepare health professionals to meet the unique health needs of Wisconsin.
Wisconsin Partnership Program: Advancing Health Equity through Community Partnerships

- Community Impact Grants
- Community Collaboration Grants
- Maternal and Infant Health Grants

<table>

Supporting Health in Rural Communities

• Improve access to addiction treatment for patients in rural Wisconsin

• Provide on-call support and training for addiction health care workers
Supporting Black Women’s Wellness

“Our goal is to move Wisconsin from worst to best for Black women’s health and Black family health.”

Lisa Peyton-Caire, Founding CEO and President, The Foundation for Black Women’s Wellness
Health Care Access for Underserved Populations

“WPP was the first to fund this idea and it allowed us to go live and obtain the resources we needed.”

Bre Loughlin, CEO and Co-Founder, Nurse Disrupted

COVID-19 Response Grant

NBC’s Today: How a nurse is providing virtual care with a touch of a button
www.today.com
Improving Health and Safety for Seniors

Improving Assisted Living Quality through Collaborative Change

- 494 participating communities
- 11,800 occupants
- Sustained through Wisconsin Department of Health Services agreement
• Promote and curate sustainable bidirectional relationships between institutions and community to develop innovative and equitable research programs that promote improve health outcomes for all
NIA HEALTH DISPARITIES FRAMEWORK

ENVIRONMENTAL

BEHAVIORAL

BIOLOGICAL

LIFE COURSE

**Hill, Perez-Stable, Anderson and Bernard, Ethnicity and Disease, 2015**
EXPOSOME

The measure of all the exposures of an individual in a lifetime and how those exposures relate to health*

*The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).
https://www.cdc.gov/niosh/topics/exposome/default.html#:~:text=The%20exposome%20can%20be%20defined%2C%20from%20environmental%20and%20occupational%20sources
Accessed 4/20/2021
Catalyze research, clinical innovation, and educational activities in health disparities research

Grow and nurture the health disparities research and practice community

Bring the benefits of multi-level mechanistic health disparities research to all in Wisconsin and beyond
CHDR Leadership Team

Andrea Gilmore-Bykovksyi, PhD
Deputy Director

Amy JH Kind, MD, PhD
Director

Barbara Bendlin, PhD
Deputy Director

JP Yu, MD, PhD
Associate Director
Basic and Translational Science

Corrine Voils, PhD
Associate Director
Patient Centered Research

Ann Sheehy, MD, MS
Associate Director
Health Policy Research

Manish Shah, MD MPH
Associate Director
Faculty Development

Menggang Yu, PhD
Associate Director
Biostatistics and Informatics
2022-2023 CHDR Highlights

- Over $52 million in active NIH funding
- 8 NIH grants submitted, 5 funded
- 56 personnel to support social exposome research (and growing)
- 15 students
- 7 active data use agreements with industry partners
- 41 new faculty and staff affiliates
Measuring Exposome Using the Area Deprivation Index (ADI)

- ADI construction
  - 17 measures of social determinants of health across small, population sensitive areas

- Current ADI for full US available through the Neighborhood Atlas®*

- Harmonizable internationally

- Dominant US social exposome metric

- Marker of structural inequity

*Kind and Buckingham, *New England Journal of Medicine*, 2018
The Neighborhood Atlas

- Data democratization and open science tool for the ADI
- Customized mapping; Free, open to all
- Data downloaded tens of thousands of times by research, governmental, community, and industry groups
- www.neighborhoodatlasedicine.wisc.edu

*Kind and Buckingham, NEJM 2018*
Residing in a High ADI Neighborhood is Linked to Poor Health

- Epigenetic age acceleration  
  (Lawrence et al, JAMA-Open, 2020)
- Rehospitalization and Cost (multiple)
- Later diagnoses and less comprehensive diagnostic evaluation  
  (Tsoy et al, JAMA-Neurology, 2021; multiple)
- Increased risk of post-surgical complications  
  (Arias et al, JAGS, 2021)
- Increased cardiovascular risk  
  (Berman et al, JAMA-Cardiology, 2021; multiple)
- Decreased active-life expectancy  
  (Gill et al, JAMA-IM, 2021)
- Many other factors
ADI Use is Widespread, Including in Federal Policy

- NIH Dissemination of the ADI
- Industry Partnerships
- Professional Medical Societies
- Private Insurers
- State Medicaid Programs
- US Center for Medicare and Medicaid Services ACO-REACH Program
Health Equity Benchmark Adjustment

ACO REACH includes a benchmark adjustment that increases benchmarks for ACOs serving higher proportions of underserved beneficiaries.

CMS will stratify all beneficiaries aligned to ACO REACH using a composite measure of underservice that incorporates a combination of:

- **Area Deprivation Index**
  - Area-level measure of **local socioeconomic factors** correlated with medical disparities and underservice.
  - Percentile Score from 1-100
  - 25 Point Adjustment for Full or Partial Dual Eligibility.

- **Dual Medicaid Status**
  - Beneficiary-level measure of economic challenges affecting individuals’ ability to access high quality care.

The benchmark adjustments are as follows:

- **91st – 100th Percentile (Top Decile)**
  - +$30 PBPM Adjustment

- **51st – 90th Percentile (Middle 4 Deciles)**
  - No Adjustment

- **1st – 50th Percentile (Bottom 5 Deciles)**
  - -$6 PBPM Adjustment

---

1. CMS may explore other variables to include in this assessment and will notify applicants prior to the start of PY2023 if any other variables are included.

*2022 ACO Realizing Equity, Access, and Community Health (REACH) Model [https://innovation.cms.gov/media/document/aco-reach-fin-meth-webinar-slides]*

Centennial Scholars/Clinicians Program

Christian Capitini, MD
Associate Professor of Pediatrics

Elizabeth Felton, MD, PhD
Assistant Professor of Neurology

Nancy C. Raymond, MD
Professor in Psychiatry
Associate Dean for Faculty Affairs and Development
Program Overview

• The **Centennial Scholars/Centennial Clinicians (CS/CC) Program** is designed to support departments in hiring and developing diverse faculty from groups who experience health disparities in Wisconsin.
  • Black, Hispanic, Hmong, Native American

• Faculty diversity enhances the quality of education, clinical care and research at the University of Wisconsin School of Medicine and Public Health.

• Program started in 2009

• Expanded after the 10-year review to include clinicians
The New Centennial Scholars/Clinicians Program

- Offers $210,000 to assist departments in hiring URM faculty and to support their professional development.
  - Over 3 years for Centennial Scholars
  - Over 7 years for Centennial Clinicians

- Program is run by an Advisory Committee

- Administrative support provided by the Office of Faculty Affairs and Development
Departments Represented

- Emergency Medicine
- Family Medicine & Community Health
- Medical Microbiology and Immunology
- Medical Physics
- Medicine
- Neurology
- Obstetrics and Gynecology
- Pediatrics
- Population Health Sciences
- Radiology
- Urology
• Program has grown from 1 participant in 2009
• 19 members as of January 2023 (13 scholars and 6 clinicians)
• 24 scholars total in the first 10 years
• At least 2 more participants joining in July 2023
• 1 participant already slated to join January 2024
Centennial Scholars & Clinicians Recruitment 2009-2022
Current Centennial Scholars/Clinicians

Yohualli Anaya, MD, MPH (2023)
Morgan White, MD (2023)
Francisco Alvarado Guillen, Pharm D, PhD (2022)
Shannon Cannon, MD (2022)
Elebeoba E. May, PhD (2022)

Melisa Carrasco McCaul, MD, PhD (2022)
Andrea Gilmore-Bykovskiy, PhD, RN (2022)
Vanessa Sperandio, PhD (2022)
Erica Knavel Koepsel, MD (2021)
Ivan Rosado-Mendez, PhD (2021)
Current Centennial Scholars/Clinicians

Christine Sharkey, MD (2021)
Claudette Adegboro, MD (2021)
Shenikqua Bouges, MD (2021)
Fred Ketchum, MD, PhD (2021)
Gloria Morel, PsyD (2021)

Sancia Ferguson, MD, MPH (2020)
Tiffany L. Green, PhD (2020)
Reinier Hernandez, PhD (2020)
Mariétou Ouayogodé, PhD (2020)
6 Member Advisory Committee

• Functions
  • Provides oversight for the program
  • Determines the programming in collaboration with Scholars/Clinicians
  • Leads the annual meetings with individual Scholars/Clinicians
  • Offer counsel to Scholars/Clinicians encountering roadblocks

• Members:
  • **Christian Capitini**, MD, Co-Chair, Department of Pediatrics
  • **Elizabeth Felton**, MD, PhD, Co-Chair, Department of Neurology
  • **Lisa Barroilhet**, MD, Department of Obstetrics and Gynecology
  • **Dawd Siraj**, MD, MPHTM, Department of Medicine, Division of Infectious Disease
  • **Jason Stephenson**, MD, Department of Radiology
  • **Shaneda Warren-Andersen**, MS, PhD, Department of Population Health Sciences
6 Member Advisory Committee

Christian Capitini, MD, Co-Chair, Department of Pediatrics

Elizabeth Felton, MD, PhD, Co-Chair, Department of Neurology

Lisa Barroilhet, MD, Department of Obstetrics and Gynecology

Dawd Siraj, MD, MPHTM, Department of Medicine, Division of Infectious Disease

Jason Stephenson, MD, Department of Radiology

Shaneda Warren-Andersen, MS, PhD, Department of Population Health Sciences
CS/CC Program FAQ’s

• Professional Development meetings once per semester

• 2 networking/community-building gatherings per year

• Annual Meetings

• K Awards vs. Centennial funding
CS/CC Program FAQ’s

• Application Process

  • Department Chairs and prospective Scholar/Clinician have a dialogue

  • Department Chair submits letter, budget

  • Applications reviewed by Advisory Committee and Assoc Dean for Faculty Affairs and Development

  • Expedited Process to put Centennial Program in candidate’s offer letter
Assessing & Advancing DEI Efforts at AAMC Medical Schools - Report Summary

Shiva Bidar-Sielaff, MA, CDM
Associate Dean for Diversity & Equity Transformation, SMPH
Vice President/Chief Diversity Officer, UW Health
Diversity, Inclusion, Culture, and Equity (DICE) Inventory, Background and Methodology

- 101 AAMC-member medical schools completed
  - 64% of US medical schools

Self-assessment of policies, practices and programs
- 89 questions
- 15 sub-content areas
- Yes, No, N/A
- Optional: collecting & reporting supporting documentation
  - 74% of schools submitted, including SMPH

Completed in May 2022

# Data and Assessment

## Diversity, Inclusion, and Equity Data Collection and Reporting

| Diversity, inclusion, and equity data are regularly collected and shared with the campus community | 45 | Are demographic data on faculty, staff, student, and leadership easily accessible to the campus community (e.g., via web-based portals, websites, reports)? | ☑ | ☑ | Faculty and Staff: UW-Madison policies limit how we can access and share demographic data for our faculty and staff. For Medical students, this data is shared in a number of different ways and openly. For instance it is available on the SMPH website: [https://www.rice.wisc.edu/education/md-program/admissions/entering-class-profile/](https://www.rice.wisc.edu/education/md-program/admissions/entering-class-profile/). |

| Diversity, inclusion, and equity data are leveraged for continuous improvement | 46 | Does the institution/school provide demographic data to schools, departments, or units to facilitate their diversity, inclusion, and equity action planning? | ☑ | ☑ | UW-Madison provides faculty & staff demographics to the SMPH but sharing it widely within SMPH is not permitted at this point due to UW-Madison policies. Senior leaders (Dean, Associate Deans and Chairs) do have access to this data. SMPH collects, tracks and monitors demographic data for students, residents and fellows. |

| Diversity, inclusion, and equity data are leveraged for continuous improvement | 47 | Have senior leaders used demographic data to promote change within the institution/school? | ☑ | ☑ | Senior leaders use this data to understand current state and also to track change and impact of DEI related strategies and tactics. |

| Diversity, inclusion, and equity data are leveraged for continuous improvement | 48 | Does the institution/school have an action plan for following up on the results of demographic data collection? | ☑ | ☑ | Our entire DEI action plan is based on the demographic data and also our quantitative and qualitative knowledge of the experiences of faculty, staff and learners from historically marginalized communities. |

## Community Data Collection and Reporting

| Collects data on community needs and perceptions | 54 | Within the past five years, has the institution/school collected data on local community needs related to its mission such as improving workforce development or health equity? | ☑ | ☑ | We do so under the auspices of our Population Health Institute through the County Health Rankings and Roadmaps program ([https://www.countyhealthrankings.org/](https://www.countyhealthrankings.org/)). For information on Dane County see: [https://www.countyhealthrankings.org/app/wisconsin2022/rankings/dane/county/outcomes/overall](https://www.countyhealthrankings.org/app/wisconsin2022/rankings/dane/county/outcomes/overall). |

| Collects data on community needs and perceptions | 55 | Did the institution/school include input from the local community in the development of its most recent strategic plan or in current institutional planning? | ☑ | ☑ | Not as part of the last strategic plan. |

| Collects data on community needs and perceptions | 56 | Does the institution/school have a formal community advisory board that is engaged in the development of new initiatives and projects affecting the community? | ☑ | ☑ | There are several community advisory boards that inform development of new initiatives and projects affecting the community. These include the Prevention Research Center, the Cardiac Cancer Center, and the Oversight and Advisory Committee of the Wisconsin Partnership Program. |
Some of the Highlighted Practices

- Decanal level leader appointed to direct a DEI Office
- DEI incorporated into speeches and townhalls
- Pathway programs
- Change in admissions policies
- Processes to report discrimination, bias and harassment
- Bias trainings for search committees
- DEI incorporated in promotion guidelines
- Affinity groups
- DEI content integrated in med school curriculum
- Lecture series, symposiums, lunch and learns
- DEI weaved into communications, branding and visual displays
- Policy and legislative advocacy
Continuing our Transformational Journey:
Alignment and Coordination

- Communities of Practice- Basic Science & Clinical Departments
- Continued collaboration with HR to create standard tools:
  - Stay interview toolkit
  - Recruitment and search process guides
- Using equity toolkit to embed equity in policies and practices
- Engage in longitudinal learning and unlearning
- Affinity groups (Employee Resource Groups)
Open for Questions

• In person: Raise hand to receive microphone

• Online: Use the chat feature to submit
